A

Ambulatory care

Continuous quality improvement of Pap smears in an ambulatory care facility (Pachciarz JA et al). Jul, 229.

C

Computer applications

A description and clinical assessment of the Computerized Severity Index™ (Iezzoni LI, Daley J). Feb, 44.

An initial assessment of the Veterans Affairs Occurrence Screening Program (Goldman RL, Walder DJ). Oct, 327.

A method for screening the quality of hospital care using administration data: Preliminary validation results (Iezzoni LI et al). Nov, 361.

Conferences

Ethics in clinical care: Practitioners discuss collaborative approaches to decision making. Jan, 33.

Faulkner & Gray, Group Health Association of America put practice guidelines to the test in real-world settings. Dec, 483.

Health care reform dominates "Health Agenda 1992" meeting. Apr, 141.

Health services researchers again focus on policy, manage-

ment, and clinical practice implications. Sep, 308.

How insurers, purchasers, and employers view their need for guidelines: Report of Washington Business Group on Health-AHCPR focus groups (Koepeke MA, Cronin CA, Lazar A). Dec, 480.

National Demonstration Project and Joint Commission forums celebrate successes and address future needs in quality improvement, I: National Demonstration Project's third annual National Forum on Quality Improvement in Health Care. Feb, 66.

National Demonstration Project and Joint Commission Forums celebrate successes and address future needs in quality improvement, II: Joint Commission's fourth annual National Forum on Health Care Quality Improvement. Mar, 108.

"National Quality of Care Forum" explores feasibility issues in quality management. Jul, 236.

Reforming health care from experience. Aug, 275.

Strategies for health care reform highlight managed care meeting. Oct, 348.

Continuous quality improvement (CQI). See quality management.

Cost containment

The financial benefits of an

effective hospitalwide quality assurance/utilization management program (Shockney L). Aug, 259.

E

Ethics

Editorial: Defining the goals of ethics consultations: A necessary step for improving quality (Sieglar M). Jan, 15.

Editorial: Needed: A broader view of ethics consultation (Fletcher JC). Jan, 12.

Editorial: Properly diagnosing impairment (Nelson JL, Jennings B). Jan, 24.

Editorial: Quality care and clinical ethics (Anzia DJ, La Puma J). Jan, 21.

Foreword: Quality of clinical ethics consultation (Brennan T). Jan, 4.

From the editor (Berman S). Jan, 2.

Letter: A revolution in understanding: How ethics has transformed health care decision making: The role of patient education (Blossom HJ, McCann DP). Apr, 118.

Letter: A transformation in health care decision making (Joesten LB). Sep, 281.

Medical staff privileges for ethics consultants: An institutional model (La Puma J, Priest ER). Jan, 17.

1992 Subject Index

The problem of the impaired clinical ethicist (Scofield GR). Jan, 26.

A revolution in understanding: How ethics has transformed health care decision making (Bartholome WG). Jan, 6.

I

Indicators

A consumer guide for marketing medical services: One institution's experience (Jensen CK, Marino PB, Clough JD). May, 164.

Interviews

Kathleen N. Lohr, PhD, interviewed by Paul M. Schyve, MD. Reasonable expectations: From the Institute of Medicine. Dec, 393.

J

Joint Commission

Letter: Audit for undertransfusion as well as for overuse of blood components (Lenfant C). Jul, 214.

M

Medical technology

Editorial: Practice guidelines: Will they have an impact in high-tech cardiology? (Eagle K). Dec, 448.

Letter: "Monoclonal antibodies for septic shock: In or out of the barn door?" (Goldstein B). Feb, 42.

Reply: A response to "Monoclonal antibodies for septic shock: In or out of the barn door?" (Nash DB). Feb, 42.

Monitoring and evaluation

Commentary: Guidelines for prophylactic platelet transfusions: Need for a concurrent outcomes management system (Shulkin DJ, Fox KR, Stadtmauer EA). Dec, 477.

Integrating external clinical information with the ten-step monitoring and evaluation process: From theory to practice (Garbo JJ, Goedken JM). Sep, 301.

N

Nurses

Seeking consensus on important aspects of nursing care (Schroeder P, Katz J). Feb, 63.

Nursing homes

Lessons learned from an early attempt to implement CQI principles in a regulatory system (Gustafson DH). Oct, 333.

Review of medical care in cited nursing homes: Key areas of deficiency (Keay TJ, Taler GA). Jul, 222.

O

Outcomes

Advancing the epidemiology of injury and methods of quality control: ACEs as an outcomes-based system for quality improvement (Tancredi LR, Bovbjerg RR). Jun, 201.

Commentary: Guidelines for prophylactic platelet transfusions: Need for a concurrent

outcomes management system (Shulkin DJ, Fox KR, Stadtmauer EA). Dec, 477.

Commentary: The role of outcomes in quality assessment and assurance (Donabedian A). Nov, 356.

Outpatient care. See ambulatory care.

P

Patient needs/satisfaction

A consumer guide for marketing medical services: One institution's experience (Jensen CK, Marino PB, Clough JD). May, 164.

Developing shared decision-making programs to improve the quality of health care (Kasper JF, Mulley AG, Wennberg JE). Jun, 183.

Letter: "Quality improvement in health care: Is the patient still left out?" (Anderson B). Feb, 43.

Letter: A revolution in understanding: How ethics has transformed health care decision making: The role of patient education (Blossom HJ, McCann DP). Apr, 118.

Letter: A transformation in health care decision making (Joesten LB). Sep, 281.

Medicare: A strategy for quality assurance, V: Quality of care in a changing health care environment (Lohr KN, Donaldson MS, Harris-Wehling J). Apr, 120.

The relationship between reported problems and patient summary evaluations of hospital care (Cleary PD, et al). Feb, 53.

Reply: A response to "Quality improvement in health care: Is the patient still left out?" (Lehr H, Strosberg M). Feb, 43.

Using the analytical peer review process (AHP) to develop and disseminate guidelines (Dolan JG, Bordley DR). Dec, 440.

Peer review

Systems versus performance problems: A peer review organization's perspective (Brooks JHJ, et al). May, 172.

Physicians

The case for intensive dissemination: Adoption of practice guidelines in the coronary care unit (Weingarten S, Ellrodt AG). Dec, 449.

Developing shared decision-making programs to improve the quality of health care (Kasper JF, Mulley AG, Wennberg JE). Jun, 183.

How to start a direct patient care team (McEachern JE, Schiff L, Cogan O). Jun, 191.

The impact of status asthmaticus practice guidelines on patient outcome and physician behavior (Webb LZ, et al). Dec, 471.

Implementing clinical practice guidelines: Social influence strategies and practitioner behavior change (Mittman BS, Tonesk X, Jacobson PD). Dec, 413.

Medicare: A strategy for quality assurance, V: Quality of care in a changing health care environment (Lohr KN, Donaldson MS, Harris-Wehling J). Apr, 120.

The physician and employee judgment system: Reliability and validity of a hospital quality measurement method (Nelson EC, et al). Sep, 284.

Presentation of drug prescribing guidelines and physician response (Lipowski EE, Becker M). Dec, 461.

Review of medical care in cited nursing homes: Key areas of

deficiency (Keay TJ, Taler GA). Jul, 222.

Self-reported versus actual test ordering behavior among primary care clinicians (Schechtman JM, Elinsky EG, Pawlson LG). Feb, 60.

Total quality management in a hospital (McCabe WJ). Apr, 134.

The use of continuous quality improvement methods in the development and dissemination of medical practice guidelines (Burns LR, et al). Dec, 434.

Practice guidelines

Advancing the epidemiology of injury and methods of quality control: ACEs as an outcomes-based system for quality improvement (Tancredi LR, Bovbjerg RR). Jun, 201.

The case for intensive dissemination: Adoption of practice guidelines in the coronary care unit (Weingarten S, Ellrodt AG). Dec, 449.

Commentary: Appropriate effectiveness: A tale of carts and horses (Kane RL, Lurie N). Oct, 322.

Commentary: Awareness, assimilation, and adoption: The challenge of effective dissemination and the first AHCPR-sponsored guidelines. (VanAmringe M, Shannon T). Dec, 397.

Commentary: Guidelines for prophylactic platelet transfusions: Need for a concurrent outcomes management system (Shulkin DJ, Fox KR, Stadtmauer EA). Dec, 477.

Commentary: Practice parameters: Development, evaluation, dissemination, and implementation (Kelly JT, Toepf MC). Dec, 405.

Communique: AHCPR-NLM joint initiative for health services research information: 1982 update on OHSRI (Flagle

CD, Cahn MA). Dec, 410.

Developing shared decision-making programs to improve the quality of health care (Kasper JF, Mulley AG, Wennberg JE). Jun, 183.

Editorial: The future of patient input into medical decision making (Kaplan S). Jun, 182.

Editorial: Practice guidelines: Will they have an impact in high-tech cardiology? (Eagle K). Dec, 448.

Editorial: A protocol for evaluation of lumbar disectomy: A second study (Gates P). Mar, 97.

Foreword (Kaegi L). Dec, 392.

Geographic variation in lumbar disectomy: A protocol for evaluation (Barron M, Kazandjian VA). Mar, 98.

The impact of status asthmaticus practice guidelines on patient outcome and physician behavior (Webb LZ, et al). Dec, 471.

Implementing clinical guidelines: A quality management approach to reminder systems (Murray KO, Gottlieb LK, Schoenbaum SC). Dec, 423.

Implementing clinical guidelines: Social influence strategies and practitioner behavior change (Mittman BS, Tonesk X, Jacobson PD). Dec, 413.

Implementing practice guidelines through a utilization management strategy: The potential and the challenges (Ellrodt AG, et al). Dec, 456.

Interview: Reasonable expectations: From the Institute of Medicine (Lohr KN, Schyve PM). Dec, 393.

Presentation of drug prescribing guidelines and physician response (Lipowski EE, Becker M). Dec, 461.
